Description

In a smart Arts & Crafts design, this is a charming pair of handmade and hand hammered dwarf silver candlesticks. The mottled dark green marble stems taper to the hammered spreading silver.

This pair of antique silver candlesticks perfectly reflect the core characteristics of the Arts and Crafts movement - a belief in craftsmanship which stresses the inherent beauty of the material, the importance of nature as inspiration, and the value of simplicity, utility, and beauty.

Despite being 110 years old, they look remarkably modern in their styling and would slip easily in to a mid-century or contemporary home setting.
