Antique & Contemporary Silver

Pair Art Deco silver-plated toast racks

James Dixon & Sons

£220

REF: 5423

Height: 100 mm (3.94")

Depth: 135 mm (5.31")

Description

This pair of silver-plated toast racks personify the Art Deco era which was characterised by sleek geometric or stylised forms. The angular shape of the frame and the fan-shaped handle are familiar design cues. Apart from holding your morning toast, we have found them to make excellent mobile phone and iPad holders.

Art Deco was a popular design style throughout Europe and represented luxury, glamour, exuberance, and faith in social and technological progress.
