Pair of Victorian glug-glug decanters

Mappin & Webb

Sold

REF: 5603

Height: 283 mm (11.14")

Description

This pair of crystal decanters are known as pinch decanters or glug-glugs. The sides are pinched together to give five stems that fill individually, and owing to this shape they make a distinctive glugging sound when being poured.

Each decanter will hold a full 750ml bottle of wine.
