Description

Whether living in an urban environment or in the country, we have a fondness for the mallard and this large silver mallard drake is carefully cast in a standing pose. His female duck partner is also available to buy.

Langfords' heavy quality models are cast in sterling silver using the traditional, centuries-old technique of lost wax casting where molten silver is poured into a mould that has been created by means of a wax model. Once the silver has solidified, the wax model is melted and drained away. Each model is then individually hand chased to produce the lifelike effect seen in the finished piece.

For a truly personal model, we can work from photographs to capture the true likeness of your own pet or favourite animal cast in sterling silver. Contact us for more details.
