Height: 115 mm (4.53")

Width: 135 mm (5.31")

Weight: 516 g

Description

This charming heavy-gauge sterling silver model of a mallard drake is carefully cast in a standing pose is beautifully hand chased to create a poised and likelike model. His female duck partner is also available to buy.

Whether living in an urban environment or in the country, we have a fondness for mallard ducks.

Langfords' heavy quality models are cast in sterling silver using the traditional, centuries-old technique of lost wax casting where molten silver is poured into a mould that has been created by means of a wax model. Once the silver has solidified, the wax model is melted and drained away. Each model is then individually hand chased to produce the lifelike effect seen in the finished piece.

For a truly personal model, we can work from photographs to capture the true likeness of your own favourite animal or pet cast in sterling silver. Contact us for more details.
