Maker Not Recorded

Sold

REF: 6372

Height: 78 mm (3.07")

Diameter: 140 mm (5.51")

Weight: 280 g

Description

Antique Indian silver bowl in the Kutch style used in Lucknow circa 1890. The bowl is hand chased with detailed scrolling foliage and floral work, set against a mottled background while above and below are bands of vertical leaves. The interior is gilded and the base bears further decoration - a pattern associated with a particular silversmith although we have not been able to identify which one.
