Silver & cut crystal caviar serving dish

£2,250

REF: 9286

Height: 140 mm (5.51")

Diameter: 210 mm (8.27")

Description

Mid-century cut-crystal caviar serving dish with an outer bowl for holding ice and a central lidded bowl to hold the caviar. The outer bowl has a substantial sterling silver rim that supports the silver wirework cradle in which the serving bowl sits. The silver lid features a stylised sturgeon fish finial. Altogether this is a very nice quality and stylish example of a caviar serving dish.
