

LANGFORDS

Antique & Contemporary Silver

Bespoke: sterling silver yacht model
Langfords

£ POA

Description

Langfords was delighted to be commissioned by an illustrious yacht club to recreate a vintage sail boat of which there are no existing examples left. Referring to images, written descriptions and observations, the silversmith employed CAD design technology to create a 3-D image for the client to approve. Patterns to exact specifications were created and using specific tooling made and assembled the model.

This exclusive and short limited edition recreation has brought the sailing boat to life, meeting the brief on time and within budget.

Do get in touch to discuss your own ideas; we can make anything in silver.
