Description

Pair of classically simple silver candelabra style with elegant tapering stems sweeping curved arms are made in the George III style that would have been popular in the late 18th century.

This lovely pair of silver candelabra feature round panelled stems and three-branch arms. The arms can be removed to create a pair of single candlesticks and if the arms are replaced, each takes four candles to cast plenty of light on the dining table. All parts are hallmarked, original and easily removable for ease of cleaning.
