REF: 4589

Height: 100 mm (3.94")

Diameter: 155 mm (6.1")

Weight: 175 g

Description

The Bugia sterling silver candlestick was designed by Gabriele De Vecchi in 1998 and has a highly polished and reflective surface that produces a radiant and multifarious illumination. The added delight of the Bugia candlesticks is that they double up as vases too, holding water and flowers instead of the candle. Bugia makes a lovely single piece or a dramatic display when clustered in groups, especially in conjunction with the taller-stemmed Flor range, also from De Vecchi.
