Description

Really useful, large, decorative, mid-century-style handmade silver bowl, perfect as the centrepiece to a table or sideboard. Made by Asprey & Co, this hand-raised shallow and panelled bowl is hammered in a multi-faceted, stippled design and surmounted by a wavy rim decorated with applied, reeded mounts. The bowl rests on a collet base decorated in a similar fashion to the rim.

This piece would perfectly suit being used as a fruit bowl or to feature a floral display.
