Antique & Contemporary Silver

Pair George II style cast silver candlesticks

J B Chatterley & Sons

Sold

REF: 6098

Height: 230 mm (9.06")

Diameter: 130 mm (5.12")

Weight: 1150 g

Description

Pair of modern cast silver candlesticks in a typical George II style that would have been popular during the 1750s. The hexagonal bases and nozzles are decorated with fluted shell patterns, while the stems are waisted and feature two knobs, one of which reflects the same fluted shell decoration. The silver nozzles are removable for ease of cleaning.
