Weight: 3311 g

Description

This exceptionally large and impressive, heavy-gauge model of a male lion is cast in sterling silver with an impressive weight of more than 3.3 kg. It is the largest silver model of a lion we've seen. The musculature is impressive and the animal's other features are beautifully hand-chased to display fine detailing. The prowling stance portrays a realistic and natural appearance of such a fine beast.

This fine silver lion model is not available to purchase online. Please contact us if you would like more information or are interested to buy it.
