Pair silver bat-eared foxes

Patrick Mavros

Sold

REF: 4987

Width: 160 mm (6.3")

Description

Finely detailed cast and chased pair of bat-eared foxes made by Patrick Mavros in his own the distinctive style. The foxes are heavily cast in sterling silver and mounted on a natural piece of wood. The bat-eared fox is a species found on the African savannah, and a log like this would be the perfect place for them to find tasty termites and beetles.
