Description

Calling them woodcocks or snipe seems to be interchangeable and the names refer to a number of wading bird species. This charming pair is carefully and realistically crafted.

All Langfords' silver models are cast in heavy quality sterling silver using the traditional centuries-old technique of "lost wax" casting. Every individual piece is then individually hand chased to produce a detailed and naturalistic effect seen in the finished piece.

For a truly personal model, we can work from photographs to capture the true likeness of your own pet or favourite animal cast in sterling silver. Contact us for more details.
