Description

Characterful silver model of a Jack Russell terrier; a small terrier that has its origins in fox hunting. The Langfords silver Jack Russell model is one of our most popular and, like all Langfords' models, is carefully cast in heavy gauge sterling silver using the traditional, centuries-old technique of lost wax casting.

Molten silver is poured into a mould that has been created by means of a wax model. Once the silver has solidified, the wax model is melted and drained away. Each Langfords model is then individually hand chased to produce the lifelike effect seen in the finished piece.

For a truly personal model, we can work from photographs to capture the true likeness of your own pet or favourite animal cast in sterling silver. Contact us for more details.
