Antique & Contemporary Silver

Silver stag model

Sold

REF: 6941

Height: 110 mm (4.33")

Width: 110 mm (4.33")

Weight: 120 g

Description

Fine model of a stag that has been cast in solid silver and, like all Langfords' silver animals and birds, is beautifully proportioned and finely hand chased to give very realistic detail.

Langfords' heavy quality models are cast in sterling silver using the traditional, centuries-old technique of lost wax casting where molten silver is poured into a mould that has been created by means of a wax model. Once the silver has solidified, the wax model is melted and drained away. Each of our models is then individually hand chased to produce the lifelike effect seen in the finished piece.

For a truly personal model, we can work from photographs to capture the true likeness of your own pet or favourite animal cast in sterling silver. Contact us for more details.
