Height: 60 mm (2.36")

Width: 105 mm (4.13")

Depth: 40 mm (1.57")

Weight: 283 g

Description

Like all Langfords' silver models, this fine model grizzly bear is cast in heavy gauge sterling silver using the traditional, centuries-old technique of lost wax casting where molten silver is poured into a mould that has been created by means of a wax model. Once the silver has solidified, the wax model is melted and drained away. Each of our models is then individually hand chased to produce the lifelike effect seen in the finished piece.

This silver bear is a perfect partner for one of our silver bulls to make an original gift or award for someone involved in the financial markets.

For a truly personal model, we can work from photographs to capture the true likeness of your own pet or favourite animal cast in sterling silver. Contact us for more details.
