Height: 100 mm (3.94")

Width: 75 mm (2.95")

Weight: 139 g

Description

Mallard ducks are the most common and recognisable wild ducks in the Northern Hemisphere and this is one of a charming pair of finely cast silver mallards.

Langfords' heavy quality models are cast in sterling silver using the traditional, centuries-old technique of lost wax casting where molten silver is poured into a mould that has been created by means of a wax model. Once the silver has solidified, the wax model is melted and drained away. Each model is then individually hand-chased to produce the lifelike effect seen in the finished piece.

For a truly personal model, we can work from photographs to capture the true likeness of your own pet or favourite animal cast in sterling silver. Contact us for more details.
