Description

Our small silver mouse in a sitting position, is cast in heavy gauge sterling silver using the traditional, centuries-old technique of lost wax casting where molten silver is poured into a mould that has been created by means of a wax model. Once the silver has solidified, the wax model is melted and drained away. Each of our models is then individually hand chased to produce the lifelike effect seen in the finished piece.

The mouse appears in most world mythology and fictional mice are abundant in our popular culture, literature and folklore.
