Weight: 834 g

Description

This wonderful modern water pitcher was made in the early 21st century by renowned jewellers Boodle & Dunthorne. With plain polished surfaces of curving form, the angled top steeply slants and the integral handle scrolls down. The elliptical opening reveals a gilt interior.

As well as being an unusual and stylish design, this jug is a hugely practical piece and it pours beautifully!

If you like this water jug, we have an identical one in a larger size.
