Bullet style bachelor teapot

Tessiers

Sold

REF: 5170

Height: 110 mm (4.33")

Width: 185 mm (7.28")

Weight: 348 g

Description

A wonderful quality, round silver teapot in the Georgian bullet style with original carved wood handle. This handmade piece has a hidden flush hinge, an indication of superior quality and made by Pairpoint Brothers for Tessiers in 1916.

A silver teapot pours like no other
Sterling silver is the perfect material for fashioning teapots:

- No other material can be fashioned into such elegant and detailed forms, reflect light as beautifully, and a perfectly formed silver teapot spout will never drip.
- Second only to diamonds, silver has the highest thermal conductivity of any material, meaning that tea leaves can be brewed at a higher temperature than in any other teapot, allowing the tea leaves to fully release their flavours.
- That same high thermal conductivity means a silver teapot will retain heat and keep tea hot for much longer.
- Unlike porcelain and ceramic teapots, silver is sturdy and long-lasting, does not shatter and the occasional dent can be deburred.
