REF: 1966

Height: 220 mm (8.66")

Diameter: 65 mm (2.56")

Weight: 1680 g

Description

Stunning set of six sterling silver wine goblets made for Aston Martin in a perfect blend of elegant design and innovative manufacturing techniques. Each silver goblet is hand-crafted and patterned with an intricate crosshatching detail to echo carbon-fibre, the material used in the world's greatest super-cars, yachts and planes. One pair of silver goblets features gilded stems, two are silver and two have ruthenium stems.
