Height: 220 mm (8.66")

Width: 250 mm (9.84")

Description

Another exceptional and original design from De Vecchi. With the Italian silversmith's trademark mirror surfaces, the sinuously shaped Moulin silver-plated waterwheel jug is one of three that are highly original yet functional.

With its perfect olive wood handle, the jug's silver spinning wheel reminds us of the mechanical force of water as a source of energy. Before reaching the glass, the water in the jug propels the silver wheel in the spout drawing attention to the object and the gesture of pouring.

Limited production of 40 per year.
